FAST PACKS

If your business depends on protecting medical devices, circuit boards or easily damaged parts during shipment, you can depend on us. Our standard, Fast Pack container sizes meet government specifications (PPP-B-1672) and offer you options for special die-cut foam inserts and printing. Compare our advantages:

- Self-locking containers
- Standard convoluted or custom die-cut inserts made from cost-effective, flexible polyurethane foam
- Order with or without government-specified corrugated cartons
- Specify corrugated plain or printed to your specs with no tooling charge for stock dies
- Choose kraft, mottled white, conductive, foil-lined or corrugated plastic board
- Commercial antistatic or conduction grade foam, with densities from 1.15 to 2 PCF

Call us for a phone quotation next time you ship out and get the value-added and delivery advantages possible from a large volume producer.
